# Meeting of the LF AI & Data Technical Advisory Council (TAC)

May 18, 2023

### **Antitrust Policy**

- Linux Foundation meetings involve participation by industry competitors, and it is the intention of the Linux Foundation to conduct all of its activities in accordance with applicable antitrust and competition laws. It is therefore extremely important that attendees adhere to meeting agendas, and be aware of, and not participate in, any activities that are prohibited under applicable US state, federal or foreign antitrust and competition laws.
- > Examples of types of actions that are prohibited at Linux Foundation meetings and in connection with Linux Foundation activities are described in the Linux Foundation Antitrust Policy available at http://www.linuxfoundation.org/antitrust-policy. If you have questions about these matters, please contact your company counsel, or if you are a member of the Linux Foundation, feel free to contact Andrew Updegrove of the firm of Gesmer Undergone LLP, which provides legal counsel to the Linux Foundation.

### Recording of Calls

### Reminder:

TAC calls are recorded and available for viewing on the TAC Wiki

### Reminder: LF AI & Data Useful Links

LFAI & DATA

### Agenda

- Roll Call (1 mins)
- Approval of Minutes from previous meeting (2 mins)
- Vote on the project lifecycle doc (2 mins)
- Resilience from XPRIZE proposed new sandbox project review (40 minutes)
- Open Discussion

### TAC Voting Members - Please note

Please ensure that you do the following to facilitate smooth procedural quorum and voting processes:

- Change your Zoom display name to include your First/Last Name, Company/Project Represented
  - example: Nancy Rausch, SAS
- State your First/Last Name and Company/Project when submitting a motion
  - example: First motion, Nancy Rausch/SAS

### TAC Voting Members - Please note

- TAC members must attend consistently to maintain their voting status
- After 2 absences voting members will lose voting privileges
- Voting privileges will only be reinstated after attending2 meetings in a row

# TAC Voting Members

Note: we still need a few designated backups specified on wiki

with the new attenuance and voting rule adopted by the TAC, the number of eligible voting members values per week and is tracked here. Please see meeting minutes on the TAC wiki to

Member Company or Graduated Project	Membership Level or Project Level	Voting Eligibility	Country	TAC Representative	Designated TAC Representative Alternates
4paradigm	Premier	Voting Member	China	Zhongyi Tan	
Baidu	Premier	Voting Member	China	Jun Zhang	Daxiang Dong, Yanjun Ma
Ericsson	Premier	Voting Member	Sweden	Rani Yadav-Ranjan	
Huawei	Premier	Voting Member	China	Howard (Huang Zhipeng)	Charlotte (Xiaoman Hu), Leon (Hui Wang)
Nokia	Premier	Voting Member	Finland	@ Michael Rooke	@ Jonne Soininen
OPPO	Premier	Voting Member	China	Jimmy (Hongmin Xu)	
SAS	Premier	Voting Member	USA	*Nancy Rausch	JP Trawinski
ZTE	Premier	Voting Member	China	Wei Meng	Liya Yuan
Adversarial Robustness Toolbox Project	Graduated Technical Project	Voting Member	USA	Beat Buesser	Kevin Eykholt
Angel Project	Graduated Technical Project	Voting Member	China	Jun Yao	
Egeria Project	Graduated Technical Project	Voting Member	UK	Mandy Chessell	Nigel Jones, David Radley, Maryna Strelchuk, Ljupcho Palashevski, Chris Grote
Flyte Project	Graduated Technical Project	Voting Member	USA	Ketan Umare	
Horovod Project	Graduated Technical Project	Voting Member	USA	Travis Addair	
Milvus Project	Graduated Technical Project	Voting Member	China	Xiaofan Luan	Jun Gu
ONNX Project	Graduated Technical Project	Voting Member	USA	Alexandre Eichenberger	Andreas Fehlner, Prasanth Pulavarthi, Jim Spohrer
Pyro Project	Graduated Technical Project	Voting Member	USA	Fritz Obermeyer	

# Minutes approval

### Approval of May 4, 2023 Minutes

Draft minutes from the May 4 TAC call were previously distributed to the TAC members via the mailing list

### **Proposed Resolution:**

That the minutes of the May 4 meeting of the Technical Advisory Council of the LF AI & Data Foundation are hereby approved.

## Project Lifecyle Document approval

### Approval of Project Lifecycle Document

### **Proposed Resolution:**

> The Project Lifecycle document for LF AI & Data Foundation is approved.

### Note:

- All changes have been incorporated
- Link: https://docs.google.com/document/d/1VFoMcXlbOKa4cqTLkaWX-8\_7-uh11hZT3b6p0wvjUHM/edit#heading=h.gjdgxs

# Resilience

**XPRIZE** 

amir@bayspring.com

LFAI & DATA

# Project Resilience

A Platform to Inform and Help Tackle Global Decision-Augmentation Problems

Project Summary
May 2023

### Agenda

**Project Mandate and History** 

Platform Outline

State of MVP

Architecture

Vision for Final Platform

Call for Help and Contribution

# Contribution to Linux Foundation

### **Project Statement**

#### **Neutral Holding**

- Global, not for profit
- Partnered with a UN agency, ITU

#### Open governance model

- Transparent and open governance model
- Instill trust in contributors and adopters in the design of the project and assets
- Neutral management of projects' assets by the foundation

### **Growing community opportunity**

- Increase visibility of project through LF ecosystem
- Opportunities to collaborate with other hosted Climate projects

# PROJECT RESILIENCE

A GLOBAL COLLABORATION FOR AN OPEN AND PUBLICLY AVAILABLE SERIES OF CLOUD BASED AI PREDICTORS and Prescription tools

A platform to enable collaboration on building predictive and prescriptive models that can be used by any community

# Project Resilience Goals

A platform to inform and help tackle global decision-augmentation problems.

Identifying data and guidelines to support sustainable models.

Focus on multi stakeholders and variety of users globally

Babak Hodjat

Risto Miikkulainen

Jennifer Stave

# The Team

Olivier Francon

Amir Banifatemi

### Initial validation: Collaboratively Tackling the Pandemic

### Needed:

- A place to collaborate
- Interoperability and Standards
- More useful Dataset built from contributed data
- More useful Models built from contributed models

https://evolution.ml/demos/npidashboard/

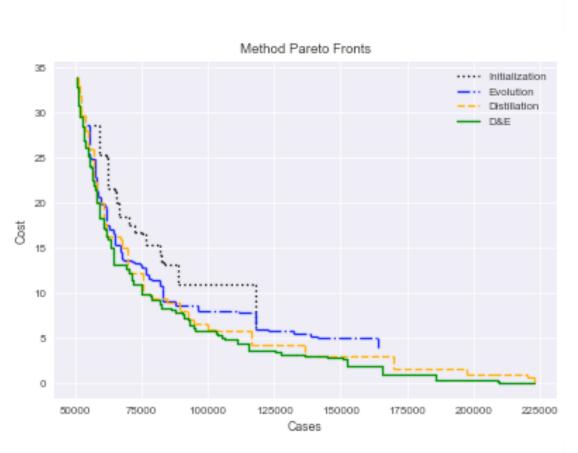

### An xprize competition:

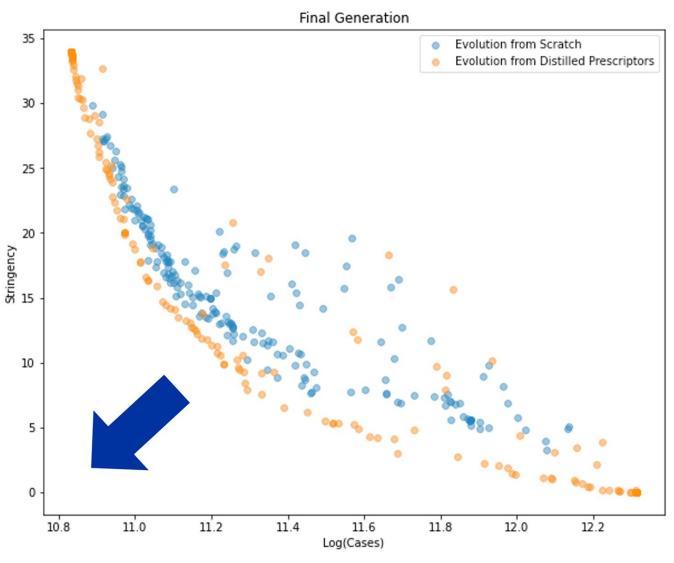

104 Data Science Teams

From 28 Countries

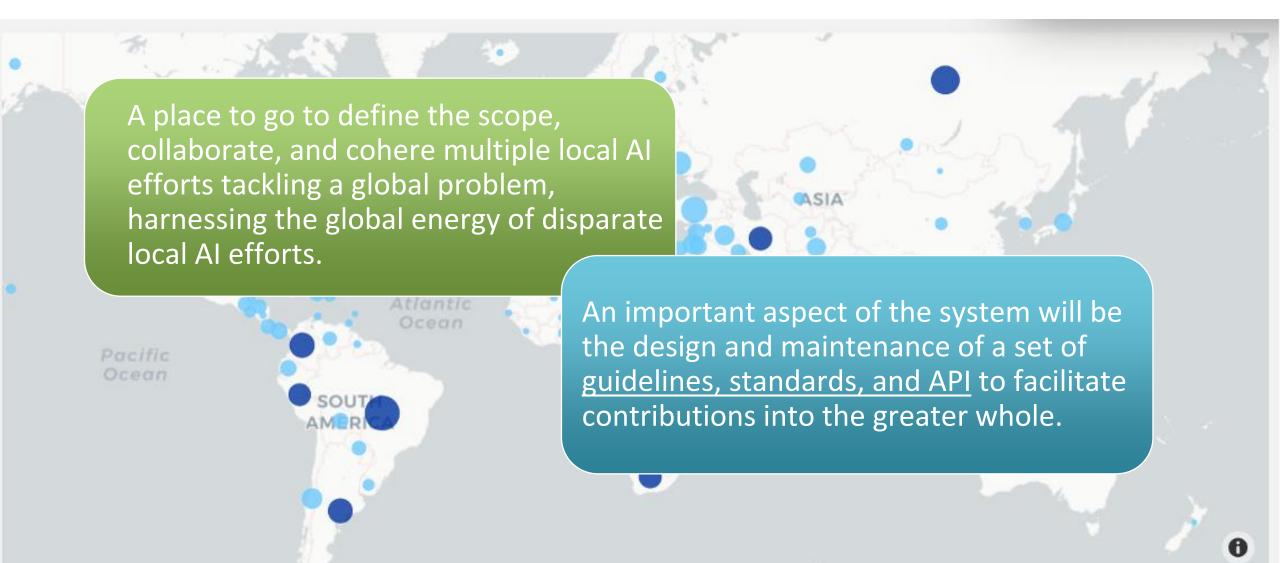

Global and Regional Data and Models

# Collaborative Models are Better Together!

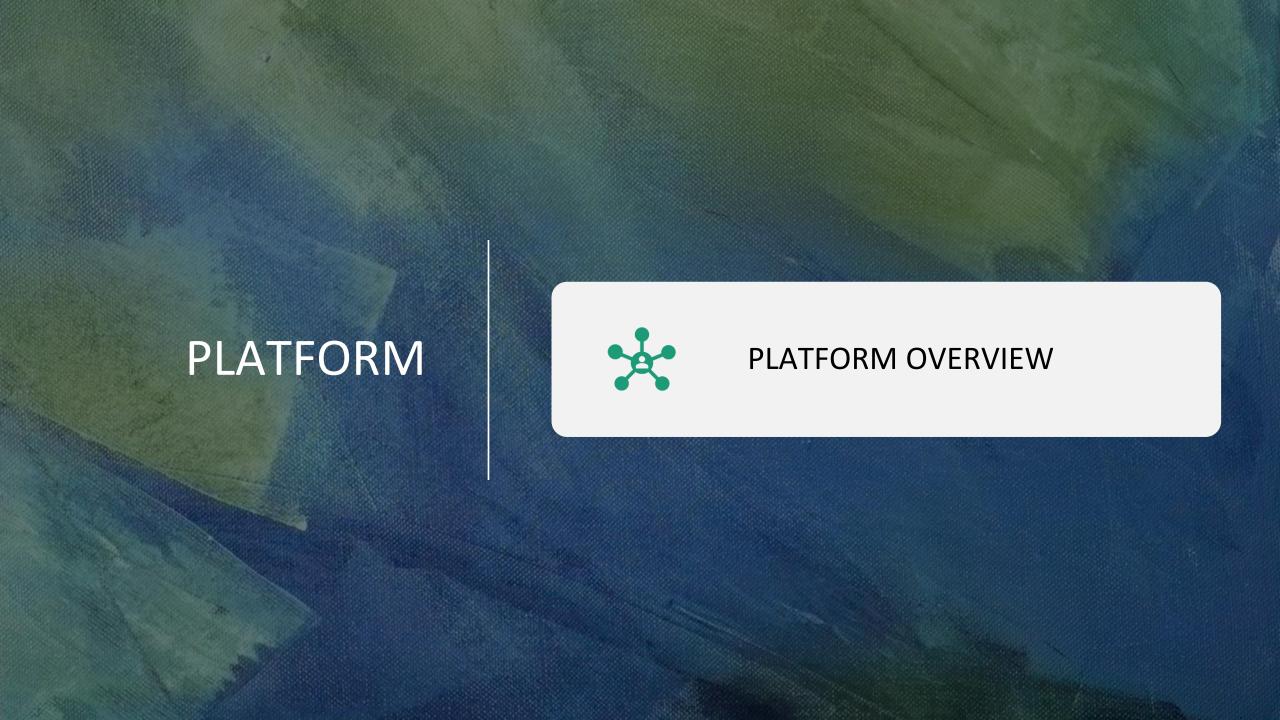

# Next step: Project Resilience Platform in other domain

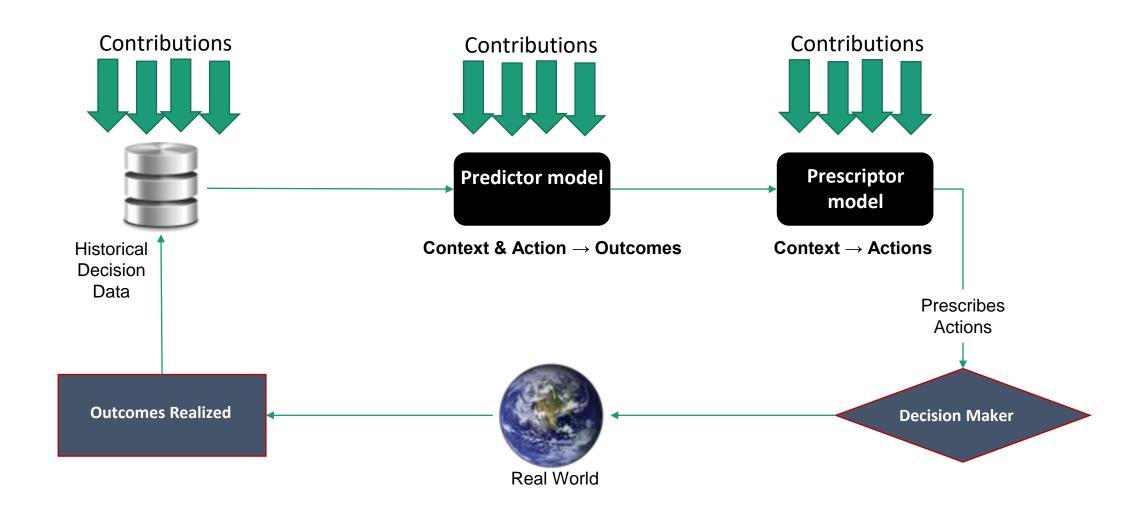

## **Project Status**

Current working group started in **Spring**, **2022**. More than 20 volunteers signed up to collaborate on selecting a use-case as well as architecting and developing an MVP-level portal. The team meets online every other week as well as coordinating over slack (projectresiliencehq.slack.com), and contributions are tracked in our GitHub Account (https://github.com/orgs/Project-Resilience). The group is working toward a goal of launching a first open platform using a climate project as an example - target: 2023/2024.

### Al Contribution Points

### **MVP** Assumptions

DATA ALREADY EXISTS

DATA IS PUBLIC AND DOES NOT HAVE SECURITY/PRIVACY CONSTRAINTS

SUBMITTED MODELS ARE CALLED AND RUN ON SUBMITTER LOCAL COMPUTE

FULL PROCESS OF MODEL TRAINING IS DISCLOSED BY CONTRIBUTORS

### Project Resilience data exploration

### Data requirements defined

Data should cover variations of decisions sufficiently

Observe the outcome of an action in a reasonable amount of time (e.g., less than 3 months)

Data should include context, actions, outcomes for each observation

Data should come from reliable, trusted, scientific, ethical sources

### Project Resilience Domain example: Climate

### Context

(e.g., geographic and local qualities)

Region
Population
GDP
Energy usage
Land cover
usage
Cost of energy

#### Action

(e.g., transitioning to clean energy)

Regional plant transitions proposed Subsidies Policies

Adaptation actions

#### Outcomes

(e.g., reduce emissions and cost)

Emissions (CO2, N2O, CH4, ...)
Energy production
Transition cost

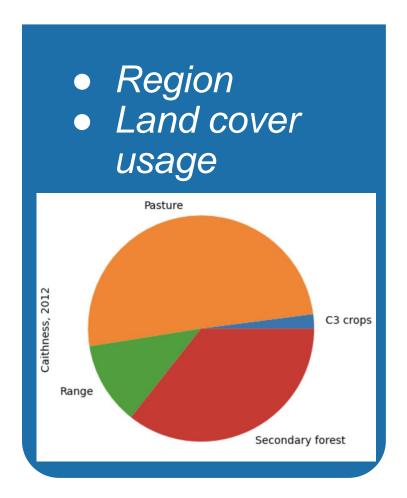

### Project Resilience data exploration example:

IPCC - Global Carbon Budget - Emissions from Land Use Change

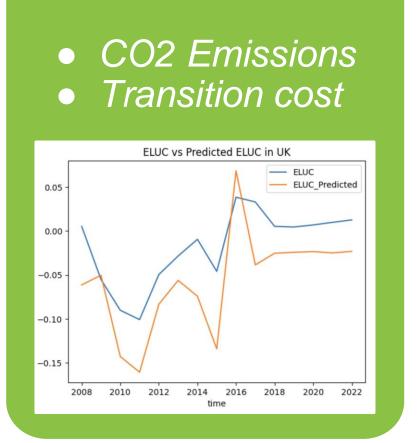

Context

Actions

**Outcomes** 

 Land Use Change C3 crops diff 0.000283 **Pasture diff** -0.003074 Range diff -0.000801 **Secondary forest diff** 0.003570 **Urban diff** 0.000000

# ARCHITECTURE FOR MVP

#### **Architecture requirements:**

- Component 1 and 7: Secure AI Development Environment for AI community contributors (e.g., AWS Service Catalog)
- Component 2: Data Science Developer IDE (e.g., SageMaker Studio domain)
- Components 3 and 4: MLOps for automated model development and deployment workflow (e.g., SageMaker MLOps project templates)
- Components 5 and 6: Automated quality, governance, and regulations for Models (CI/CD workflows)
- Component 8: Data Store (Secured Data Lake )
- Component 9: Insight analysis (e.g., Amazon QuickSight and Web App)
- Component 10: Bring your Own Model

# Next steps to release MVP

**Ensembling of submitted models** that include predictor models (take context and actions as input, predict outcomes) and prescriptor models (take context as input, prescribe actions optimizing desired balance of outcomes)

**Automated module** to assess and compare models by making calls to models hosted by 3<sup>rd</sup> parties or submitters

Guidelines for Al Contributors on data requirements and format (context/action/outcomes column) and lifecycle considerations

### Final Platform

**AI Contributor** 

Data scientists and ML experts can submit solutions that comply with certain API standards, maybe in the form of Predictor/Prescriptors

Sandbox and Evaluation Poc

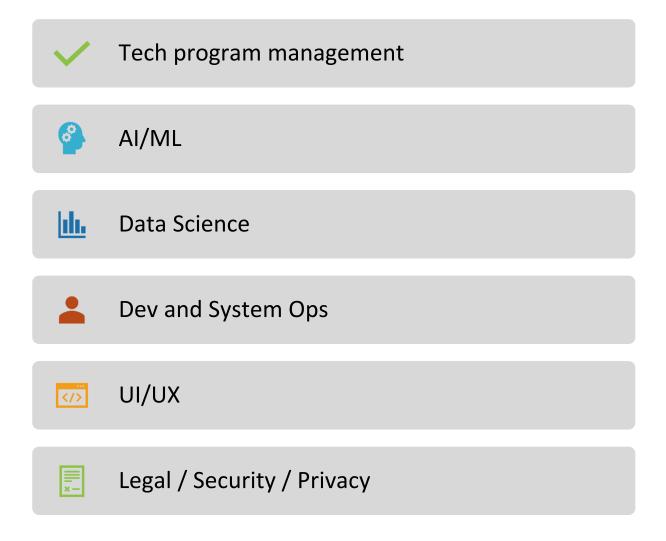

Regulator

Support

An evaluation testbed is provided to assess and compare submissions quantitatively

Appropriate Data and Funding requirements can be showcased/explained

### Volunteers Needed

# Data Contributions Needs

- To identify contributors and their roles (relationships) as data suppliers (sources)
- To evaluate conversion of collected data into publicly available data and/or data sets for predictors
- To get help validate data quality with appropriate KPIs
- To get data clearing house support as a platform to aggregate the data
- To curate data with common data models for shared taxonomy
- To support data features (context/action/ outcomes) and repositories (local storages)
- To support data life cycle management
- To ensure security, privacy, and trust as well as legal compliance including data ownership

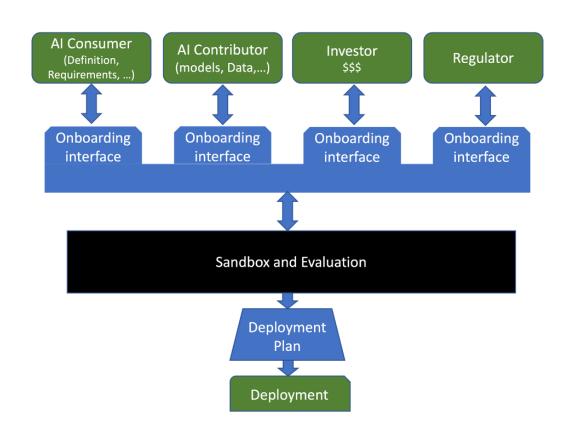

Standard opportunity: Data sharing in a standardized way with interoperable interfaces

# Project Outcome expected with LF

- ⇒ An open portal + platform to integrate constituents of a collaborative AI decision-augmentation system
  - Help decision making authorities and organizations tackling issues such as climate change, ecological disasters, disease control, water management, economic inequity, diversity and inclusion...
- ⇒ A framework for collaboration on AI predictive and prescriptive models

#### $\Rightarrow$ Allow for :

- Local Learnings, Data agency, and Model development and deployment in various communities
- All models harnessed into a greater global whole

### Approval of Resilience as a Sandbox Project

### **Proposed Resolution:**

Approval of Resilience as a Sandbox project of the LF AI & Data Foundation are hereby approved.

# Thank You!

# **Upcoming TAC Meetings**

### **Upcoming TAC Meetings**

- June 1 AutoML" from Fujitsu, new Sandbox project proposal
- June 15 EthicalAI from Fujitsu, new Sandbox project proposal

Please note we are always open to special topics as well.

If you have a topic idea or agenda item, please send agenda topic requests to tac-general@lists.lfaidata.foundation

# **Open Discussion**

### **TAC Meeting Details**

- To subscribe to the TAC Group Calendar, visit the wiki: https://wiki.lfaidata.foundation/x/cQB2 \_\_\_\_\_
- Join from PC, Mac, Linux, iOS or Android: <a href="https://zoom.us/j/430697670">https://zoom.us/j/430697670</a>
- Or iPhone one-tap:
  - > US: +16465588656,,430697670# or +16699006833,,430697670#
- Or Telephone:
  - > Dial(for higher quality, dial a number based on your current location):
  - US: +1 646 558 8656 or +1 669 900 6833 or +1 855 880 1246 (Toll Free) or +1 877 369 0926 (Toll Free)
- Meeting ID: 430 697 670
- > International numbers available: <a href="https://zoom.us/u/achYtcw7uN">https://zoom.us/u/achYtcw7uN</a>
